

PS Type Plastic Chain

This chain is based on the HPS type with an optimized shape and lightweight design. The enhanced pin shape makes it easier to connect and disassemble.

PS720S Plastic Chain

Chain	Pitch P (mm)	Barrel diameter R (mm)	Sprocket tooth width W (mm)	Pin		Height H (mm)	Assured breaking strength (kN)	Weight (kg/m)
				Diameter d (mm)	Length L (mm)			
PS720S	152.4	36.5	27	23.5	115.5	57	24.5	2

SF4 Attachment

Chain	Dimensions (mm)										Additional weight per link (kg)
	A	B	C	D ₁	E	F	G	K	S	T	
PS720S	76	160	36.5	14	140	100	65	25	33.5	7	0.34

Features

- An optimized shape resulted in a 10% lighter product, making it even easier to carry.
- Pins are locked by inserting clips.
The chain can be connected, assembled, and disassembled without the need for any special tools.
- Simply insert a flat head screwdriver into the window and push up using it as a lever to easily remove the clip.
Note: Clips cannot be reused once removed.
