

Chains for Grit Tank

HSS Type Stainless Chain

Chain components are made from carefully selected 400-class stainless steel, which is accurately pressed and specially heat treated. They have excellent dimensional precision, and are designed to deliver adequate tensile strength at low weight. They also offer superior corrosion and wear resistance. We offer SF4 attachments for mounting collector flights, D-22 attachments for mounting dredger buckets, and T-1 and A-2 attachments for mounting debris remover rakes.
